TO WHOM IT MAY CONCERN:

On behalf of Agape Aoga Amata Board, we are please to provide this reference for Sue Ah-Young and her team, Solve consult, previously known as Essential Education Solutions (EES).

Solve Consult offers a high performing professional service to their clients. The service they provided especially for Agape Aoga Amata was;

1. Governance and management support
2. Policy development guidance,
3. Curriculum support
4. And our most successful outcome from their mentoring was gaining our probationary licence which later leads to the achievement of obtaining a full licence.

This is just a small amount of how much their guidance and support has helped us flourish as an Aoga Amata. They go beyond and ensure that our best wishes are achieved.

Solve Consult has helped our Aoga Amata most recently with our ERO reports without the hard work of their service we would not have been able to maintain two three-year reports carried out by the Ministry of Education as they were pleased with what our Aoga Amata were achieving all with the support of Solve Consult.

Solve Consult has played an integral part to the success of our Agape Aoga Amata, Mangere service.

We believe that Solve Consult can really help and flourish more Pacific Island services in the community to provide quality Service to our children.

Please do not hesitate to contact me if you need any further information.

Warm Regards

Natasha Suaalii

General Manager
