Sue and Puao supported myself and my teaching team through the preparation of specific policies that were needed to meet the Probationary License.

Jodi has been inspirational with her knowledge of the Early Childhood Curriculum and assisted us in the re-structuring of our learning environment which now looks amazing.

With the help of their team, we gained our full license, but most importantly our management and teaching team have been motivated and determined to maintain the high quality of our service.

Solve Consult offers a high performing professional service to their clients. Their service they provided especially for Fotumalama Aoga Amata was;

1. Board, Governance and management support
2. Financial Systems
3. Policy development guidance,
4. Curriculum support
5. And our most successful outcome from their mentoring was gaining our probationary licence which later lead to the achievement of obtaining a full licence.

Solve Consult has helped our Aoga Amata most recently with our ERO reports without the hard work of their service we would not have been able to maintain two three-year reports carried out by the Ministry of Education as they were pleased with what our Aoga Amata were achieving all with the support of Solve Consult.

We are very grateful and appreciated their support throughout this time of setting up systems and putting in place consulting with us processes and procedures that is easy for us to understand and we would recommend them to any other Early Childhood service that is looking for extra assistance.

Feel free to contact us, if you need further information.

Kind regards
