Dear Sue and Fitu,

I have been given the pleasure of writing a recommendation letter for these two wonderful people who I am truly blessed and grateful to know.

I first met them in 2012, and the amount of support and services they provided to our Board at the time was immense. They came in and re-established a working Board and taught us about governance and management. Throughout the year Fitu worked with me teaching me leadership and governance and licensing for our preschool. Sue worked with me and another colleague on policies and other licensing criteria.

Throughout the year they mentored me in my role as Centre Manager and Sue taught me about Ministry requirements. Sue assisted in our interview process for our staff and they both worked with us consistently throughout the year until we opened on the 6<sup>th</sup> May 2013.

These two people have had a hand in establishing Apii Potiki Glen Innes Community Preschool, a centre that follows the right practices; it is a service for the community and is a place of opportunity. We have been running this centre successfully for the past five years due to the work and foundation these two have set.

I am indebted to this wonderful couple, which is why I write this recommendation willingly and with an open heart, because they are two of the best human beings I have met in my life and it is truly an honour to be asked, much love to you both.

Please do not hesitate to contact me if you have any queries.

Kind Regards
